CAREER OBJECTIVE

Motivated and enthusiastic Computer Science & Design engineering graduate seeking an entry-level position in the IT industry to apply technical knowledge, problem-solving skills, and programming abilities toward organizational goals, while continuously learning new technologies and growing professionally.

EDUCATION

B.E. — Computer Science and Design | ATME College of Engineering, Mysore 2027
CGPA: 8.62 / 10

12th (PUC) — PCMB (Science) | Alva's PU College, Moodbidre 2023
Karnataka PU Board | Percentage: 86.12%

10th (SSLC) | Moorarji Desai Residential School, Chikkamagaluru 2021
Karnataka SSLC Board | Percentage: 92.16%

INTERNSHIP

Full Stack Development Intern | TechnoHacks Solutions Pvt. Ltd. Mar 2026 – Apr 2026

- Contributed to full stack web development tasks, building and integrating frontend components (HTML, CSS, JavaScript) with backend logic (Flask, MySQL), gaining hands-on exposure to end-to-end application design and development.
- Collaborated with the development team to build, test, and debug web application features, strengthening practical skills in real-world software delivery.

PROJECTS

Skill Sharing and Micro Learning Platform | Python, Flask, HTML, CSS, JS, MySQL/SQLite 2025

- Designed a full stack peer-to-peer skill sharing and micro learning platform with secure authentication, separate learner/expert dashboards, and content management functionality.

OpenGL Bridge Lift Simulation | OpenGL, GLUT 2025

- Developed an interactive bridge lift simulation applying real-time animation and geometric transformation techniques.

Predictive Maintenance of Gearbox System Using Deep Learning | Python, TensorFlow, CNN Ongoing

- Developing a CNN-based predictive maintenance model for gearbox fault detection using vibration sensor data for early fault classification.

AI-Driven Early Detection of Cardiac Risk | NOSTRADAMUS-2K26 Hackathon 2026
Organized by Ramaiah Institute of Management Studies (RIMS)

- Led the interface design for a machine-learning-based tool aimed at flagging early warning signs of cardiac risk, focusing on clear, intuitive presentation of predictive results for end users.
- Worked with a cross-functional team under hackathon time constraints to translate the model's output into an accessible, user-friendly screen flow.

PAPER PUBLICATION

- “Skill-Sharing and Micro Learning Platform,” published in IJSREM Journal, Volume 09, Issue 12, December 2025.

WORKSHOPS

- SKULERR Tech Expedition Phase II, Microsoft Luxor, Bengaluru — Nov 2024.
- AI-Powered Mobile Robotics using Webots, with iRobo Automation Pvt. Ltd. — Mar 2026.

HACKATHONS

- “NOSTRADAMUS-2K26” Hackathon, organized by Ramaiah Institute of Management Studies (RIMS) — Feb 2026.

TECHNICAL SKILLS

- Java, Python, C
- HTML, CSS, JavaScript
- MySQL, MongoDB
- DSA, OOP, DBMS, OS, Computer Networks
- Git, GitHub, VS Code, OpenGL, GLUT, Figma

SOFT SKILLS

- Communication
- Teamwork
- Problem-Solving
- Adaptability
- Time Management
- Leadership

CERTIFICATIONS

- DSA using Java — Infosys Springboard
- Agile Scrum in Practice — Infosys Springboard
- Generative AI Studio — Simplilearn
- Cloud Computing — BE Honours
- Advanced Computer Networks — BE Honours
- Block Chain and its Applications — BE Honours
- Machine Learning for Engg. & Science Applications — BE Honours

LANGUAGES

- Kannada
- English
- Hindi

INTERESTS

- Painting
- Drawing
- Reading Books
